B-277451 installed on the problem job, and conducting follow-up or monitoring to ensure that they continue to be protected from exposure to ergonomic hazards. Federal and state-operated OSHA programs have undertaken a number of Selected OSHA Efforts enforcement and education efforts to encourage employers to adopt the Encourage Employers to core elements of an ergonomics program. For example, as a result of Implement These Core has entered into a number OSHA inspections under the general duty clause, Elements of corporate settlement agreements, primarily with automobile manufacturing and food processing employers, that allow these employers to take actions to implement these core elements in an effort to reduce the monitors OSHA identified hazards according to an agreed-upon timetable. the employers progress under the agreement and will not cite them as OSHA long as the terms of the agreement are upheld. In 1996, introduced a nursing home initiative, under which it targeted nursing homes in seven states for inspection to look for evidence of safety and...
