Brand New Book ***** Print on Demand *****.I m in the middle of the perfect college semester, hundreds of miles from Mom, with an awesome roomie and my freshman crush finally becoming a sophomore reality-Hotness! I m figuring out calculus, I ve got both hands on the handlebars and the wind of freedom in my hair. What on earth could slow my roll? How about if the Yellowstone volcano erupts for the first time in 630,000 years, spewing a continuous load of ash (crap) all over North America? Think that ll put a kink in my bicycle chain? Make that kinks, plural, because here s a scientific fact I ll bet you didn t know. Nothing ruins the perfect semester like a super caldera. Now that I ve made you smarter today, maybe you can tell me how to keep my life cruising in the right direction-no to Mom, yes to roomie, double yes to Hotness!-during a global disaster? My lame name is Violet and, in the interest of full disclosure, I m not hanging from the side of a cinder cone on the last page of this trauma, but there s definitely more to come. Unless, of course, humans become extinct and then there s not. Duh. Eruption is book one in the Yellowblown Series.
