Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from On the Treatment of the Morphine Habit The great work of Dr. Albrecht Erlenmeyer on the Morphine Habit was published in 1883; the second edition appeared in 1887. It is much to be desired that the entire book might appear in an English translation; such a volume would, however, be too large for the Leisure Library series. One chapter only of this work is here reproduced, viz., that pertaining to Treatment. Nor is this chapter given in its entirety, as it seemed best to the translator to make some abridgments, and it is especially under the head of the cocaine habit that such abridgment appeared to be demanded - that topic being treated in the original with a diffusiveness, and a minuteness of detail, which, although adding to the scientific value of the entire work, would have been out of proportion in this translation. The aim of this little volume, in fact, is to give a plain, concise and practical presentation of the therapy of morphinism according to Erlenmeyer's teachings. The translator has made other brief abridgments according to his best judgment, the omitted passages being mainly repetitions, or paragraphs that would have been unintelligible without the reproduction of parts of the book in other chapters to which the omitted portions refer. To Mr. Carl Meinerth, an accomplished German scholar the translator is mainly indebted for assistance in the translation of the text. Dr. Ernest H. Noyes has added a chapter of reports of cases occurring in Erlenmeyer's clinic, and illustrative of his methods of treatment.
