Immunohematology for Medical Laboratory Technicians

By Sheryl Whitlock

Cengage Learning, Inc. Paperback. Book Condition: new. BRAND NEW, Immunohematology for Medical Laboratory Technicians, Sheryl Whitlock, "Immunohematology for Medical Laboratory Technicians" is a text appropriate for all levels of laboratory science programs. Each chapter is structured to provide detailed technical information interspersed with critical thinking activities, web activities, case studies, sample procedures, and review questions. Students will have the opportunity to complement readings with activities that match his/her learning style. Basic concepts are covered in the early chapters and application in later chapters. Concepts of Immunohematology are comprehensively prepared, along with some review of appropriate support topics, such as immunology, components of blood, and anticoagulants. Clinical applications and problem solving are incorporated in the text as appropriate.

Reviews

I actually started looking over this publication. It really is rally interesting throgh studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dana Hintz**

Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You wont really feel monotony at at any moment of your time (that's what catalogues are for concerning when you ask me).
