TRANSITION TO PEACE: A DEFENSE ENGINEER'S SEARCH FOR AN ALTERNATIVE TO WAR

iUniverse, United States, 2012. Paperback. Book Condition: New. 213 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.World peace may seem like an impossible dream. Not only is it counter to human nature, but there are also many political, economic, and cultural obstacles to overcome. In *Transition to Peace*, author Russell Faure-Brac contends war is not a necessary evil; there are more effective and rational ways for the United States to defend itself. In this analysis, Faure-Brac examines where world peace stands now and how it relates to the rapidly changing world. He combines the nonviolent power of Mahatma Gandhi and Martin Luther King; the concept of Peaceful Warriorship as found in the martial arts of Aikido and Ninjutsu; and the Permaculture ideas of Earth Care, People Care, and Faire Share to form the basis for peace programs and three peace principles that he proposes as a new national security policy. Faure-Brac then lays out a plan for making the changes. Though world peace might be a challenging prospect, *Transition to Peace* shows that is possible to achieve it, and the United States can lead the rest of the world in the right direction.
