Reviews

A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

General Accounting Office, 2003 OCLC Number: (OCoLC)53706191 Subject: Computer security -- United States. Excerpt: . . . For the federal government, we have reported since 1996 that poor Significant information security is a widespread problem with potentially devastating 14 Weaknesses Persist in consequences. Although agencies have taken steps to redesign and strengthen their information system security programs, our analyses of Federal Information information security at major federal agencies have shown that federal Security systems were not being adequately protected from computer-based threats, even though these systems process, store, and transmit enormous amounts of sensitive data and are indispensable to many federal agency operations. For the past several years, we have analyzed audit results for 24 of the largest federal agencies and found that all 24 had significant 15 information security weaknesses. Further, we have identified information security as a governmentwide high-risk issue in reports to the Congress 16 since 1997 - most recently in January 2003. As we reported in November 2002, our analyses of reports issued from October 2001 through October 2002, continued to show significant weaknesses in federal computer systems that put critical operations and 17 assets at risk. Weaknesses continued to be reported in each of the 24 18 agencies included in our review, and they covered all six major areas of general controls - the policies, procedures, and technical controls that apply to all or a large segment of an entitys information systems and help ensure their proper operation. These six areas are (1) security program management, which provides the framework for ensuring that risks are understood and that effective controls are selected and properly implemented; (2) access controls, which...
